Dear George, Lardner

Here is the Henderson report os seeing two men in the TSBD "Oswald" window.

After we spoke I checked the files to see if the same Volume held any report on the investigation of the "lead." There is none in this "Section," their word for vo,ume in this case.

Reference if you decide to ask FBI: Dallas 89-43, Section 9, Serial 1010. They should still have the Dallas files at FBIHQ because the case is still in court.

Don't let them confuse this with a man named Henderson, who has a different address and gave a different report.

If I have time I'll check the next volume or two. Can't now.

Sincerely,
